

Duette® Architella™ Collection

Revolutionary Honeycomb Design

New Duette® Architella™ fabrics are another dazzling innovation from Hunter Douglas. Its honeycomb-within-a-honeycomb design provides several important benefits to your customers.

- Superior energy efficiency — three distinct air pockets provide increased insulation
- Richer color with semi-opaque fabrics — layers of fabric create more intense color
- True color with Eclipse™ opaque fabrics — opaque material comprises the inner honeycomb only, so it does not affect the room-side color
- Crisp pleats on each side of the fabric — inner honeycomb features TruePleat™ construction allowing the outer honeycomb to remain a true honeycomb shape

Two Fabric Styles

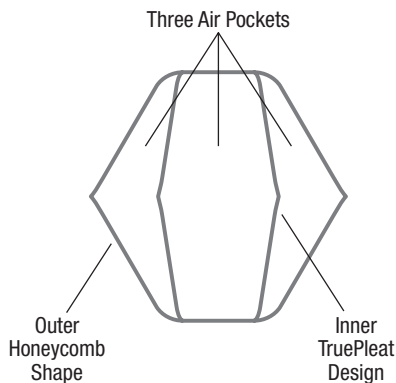

Two beautiful fabric styles comprise the Architella Collection. The new Elan™ fabric is elegant with a subtle shimmering look; and Panache™ fabric has a unique textured look with a soft feel.

Two Pleat Sizes

Both Architella fabric styles are offered in ¾" and 1¼" pleat sizes. Each pleat size is available in either semi-opaque or opaque fabric.

Lifting Systems

Architella Panache and Architella Elan fabrics are available with most Hunter Douglas lifting systems and design options. See the Size Standards charts for details.

Notes:

- Minimum ordered width is 19".
- Minimum ordered height is 6".
- Maximum width for end-mounted PowerRise® shades is 65".
- Arches and Quarter Circles cannot share the PowerRise headrail.

ORDERING NOTES

- Pricing is the same for Architella™ Panache™ and Architella Elan™ fabrics. The pricing varies by pleat size and opacity.
- Mounting requirements, finished dimensions and other specifications are the same as other 3/4" or 1 1/4" fabrics.

ENERGY EFFICIENCY

The Value of R-Value

R-value measures a product's ability to keep heat in and cold out. The higher the R-value, the greater the insulation.

An R-value of 4.00 will prevent up to 75% heat loss through the window.

Duette® Architella honeycomb shades, with R-values ranging from 5.48 to 7.73, offer tremendous energy efficiency benefits with distinctive fashion.

R-VALUE	3	3.5	4	4.5	5	5.5	6	6.5	7	7.5	8
Architella 3/4" Semi-Opaque					5.48

HOW TO USE THE SIZE STANDARDS CHARTS

The Size Standards charts are designed to be a quick reference to size standards, price charts and where to find further product specifications. Price charts are referenced by chart number next to the fabric style and further product specifications are referenced by page number under the application. Minimum sizes and other notes are included at the bottom of each chart. **Important: shade dimensions must be equal to or less than the maximum dimensions (width, height and area) and equal to or greater than the minimum dimensions (width and height) to be within specification guidelines.**

EasyRise™ Motorized: 32"
- Minimum ordered height is 6" except:
Skyrise®: 18"
Vertiglide™: 24"
EasyView Arch: 7"

- Skyrise: maximum area varies with slope angle; see page DU-50.
- Skyrise: maximum area of stack bottom shades is 35 sq. ft.
- Skyrise: maximum area of stack side shades is 50 sq. ft. or maximum area shown on chart, whichever is less.
- Skyrise: with stack side shades, use maximum width for maximum height and maximum height for maximum width.
- Vertiglide: specifications are per panel for Duolite™ designs.
- Vertiglide: split stack designs over 168" will be fabricated as two separate shades; the supplied valance will create the appearance of a single shade.
