Special Instructions: _____

DUETTE®

Honeycomb Shades

PowerRise® with Platinum™ Technology Order Form

1	Specify the quantity of shades with identical dimensions and fabric.
2	Specify dimensions - width and height (round down to the nearest 1/8").
3	Specify fabric choice. <i>*Fabric number - Color number (example: D2-953).</i>
4	Specify design option.
5	Specify mounting style. <i>*This will determine what deductions are taken in the fabrication of this shade.</i>
6	Specify IR/RF receiver location on headrail.
7	Specify satellite battery pack wire length, if ordered.
8	Specify AC transformer wire length, if ordered.
9	Specify if there are any optional features that need to be added to the shade or to the order. <i>*Specify Channel 2 operation for independent operation of adjacent or stacked shades. (Channel 1 operation is standard.)</i>

PowerRise® with Platinum™ Technology Order Checklist

Use the checklist below to be sure you consider all important factors when ordering Duette® with PowerRise with Platinum Technology shades.

- Is the shade within size specifications for the fabric being ordered?
- Is the shade being ordered in a Standard or Top-Down design option?
- Will adjacent shades require alternate left and right infrared eye placement to be sure the eyes are more than 48" apart for reliable independent operation using a single channel?
- Is Channel 2 desired to ensure independent operation of adjacent or stacked shades?
- Is more than one remote control required for shades in different rooms or on different floors?
- Will a top treatment cover the headrail, requiring a satellite eye for IR operation?
- Is a satellite battery pack needed to make changing the batteries easier?
- If ordering an optional satellite battery pack, what wire length is needed (15", 4', 8')?
- Is the AC transformer desired to eliminate the need for batteries?
- If ordering an AC transformer, what wire length is needed (16' or 25')?
- If ordering an AC transformer, will multiple shades be connected using an optional daisy chain?
- With outside mounts, are spacer blocks needed for added clearance?
- Specify color-coordinated moving or bottom rail (except 1 1/4").
